CLIA#03D0692832 • CAP Accredited • fertilitytreatmentcenter.com

FEMALE FDA DONOR TESTING

Please give to the LabCorp testing center.

Instructions for use: FDA requests that donor screening tests be performed to assess a donor for signs of a relevant communicable disease. If you elect not to have blood testing done, you may disregard this form.

Please call our donor coordinators (see page one) to schedule testing at FTC or call 1-800-582-0077 to find a *LabCorp Patient Service Center (PSC)* near you. **LabCorp must be notified 24-hours prior to your blood draw** to make sure they have the appropriate ViroMed Kit on hand.

ViroMed is an FDA-registered laboratory for donor testing. They are CAP-accredited and CLIA-certified with testing services provided 7 days a week. **There is no charge to you for these tests, LabCorp/ViroMed will bill our account.**
